CORE TECHNICAL SKILLS

Programming Languages

Java, JavaScript, HTML5, CSS3

Frameworks & Libraries

Vue.js, Quasar, React, Angular, React Native, Tailwind CSS, Bootstrap, Java EE, Spring, Spring Boot, Express, JavaFX, Hibernate, jQuery

Databases & Data Management

MySQL, MongoDB, H2 Database, Relational Database Design, ORM

Software Architecture & Concepts

Object-Oriented Programming (OOP), Design Patterns, Layered Architecture, MVC Architecture, Client-Server Architecture

SUMEADHA ERANDA

Software Engineer (Full Stack)

PROFESSIONAL SUMMARY

Results-driven Full Stack Software Engineer with over three years of hands-on experience in designing, developing, and maintaining scalable web and enterprise applications. Strong expertise in JavaScript frameworks, Java-based backend systems, and modern software architectures. Proven ability to deliver high-quality internal and client-facing products using agile methodologies. Passionate about clean code, performance optimization, and continuous learning, with a strong foundation in object-oriented programming, database design, and system architecture.

PROFESSIONAL EXPERIENCE

Software Engineer (Singer Srilanka -IT)

November 2023 - Present

- Design, develop, and maintain scalable full stack applications for internal business operations.
- Contribute to system architecture decisions, ensuring performance, security, and maintainability.
- Collaborate with cross-functional teams to gather requirements and deliver high-quality software solutions.
- Implement reusable components and services to improve development efficiency.
- Ensure code quality through proper documentation, version control, and best practices.

Key Projects

Employee Hierarchy Automate System (Internal Product)

Technology Stack: Oracle PL/SQL , IFS Applications HR Module ,ASP (MVC).NET

- Developed and enhanced a comprehensive internal management system.
- Led the end-to-end development of a Digital Employee Hierarchy System to replace manual reporting structures within the HR department.
- The system dynamically maps organizational reporting lines, updates hierarchies in real time

Singer - IFS Integrated Enterprise App (Internal Product)

Technology Stack: Flutter (Dart), IFS Applications, REST/OData APIs, Oracle DB (Mobile App)

- IFS Applications using OData and REST APIs authentication and user management system.
- Integrated in ifs module for secure enterprise-level access control.

Singer -IFS User Management System with Hierarchical Permissions

Technology Stack: PHP (Core PHP) , Oracle ,HTML, CSS, JavaScript, Bootstrap (WEB App)

- Real-time integration with IFS Applications using OData and REST APIs.
- Module access for HR, Maintenance, and Inventory with dynamic UI rendering

Client Projects

Singer - Hayleys Advantis

Technology Stack: Oracle PL/SQL , IFS Applications HR Module ,ASP (MVC).NET (WEB App)

- Real-time share the data with IFS Applications data trough REST APIs.
- maintained **HR-related web modules** using aligned with business workflows.

Tools & Platforms

Git (GitHub, GitLab), Visual Studio Code, IntelliJ IDEA, , Maven

Operating Systems

Windows, Linux

Cloud & Other Technologies

Firebase, AWS, AJAX, PWA Development, Docker Pipeline

ACHIEVEMENTS & STRENGTHS

- Experience working on both internal products and enterprise-level client systems.
- Strong understanding of full software development lifecycle.
- Ability to quickly adapt to new technologies and frameworks.
- Proven teamwork and communication skills in agile environments.

Associate Software Engineer

SML Technology

JUL 2022 – Aug 2023

SelfHostWCFSservice

- Did the load testing automation help identify performance bottlenecks and potential issues with the system under heavy load, which allowed for improvements to be made to enhance the system's overall performance and stability.

RFID ORDER SIT Duplicator

- WPF application that read excel file and send it to the SIT DB and making relationship between data.

PERSONAL & ACADEMIC PROJECTS

Safe AirTrack System (WEB & Mobile App)

Technology Stack: React.js, REST APIs, Maps, IOT, Spring Boot,(AWS) MySQL,

Docker pipeline

- Implemented **live metrics and interactive charts** for CO₂ levels, temperature, and humidity.
- **dashboard** for a CO₂ Monitoring System to visualize real-time air quality data.
- Integrated **GPS map views** to track device locations in real time.
(<https://safeairtrack.onrender.com/>)

Online Book Management System

Technology Stack: Java, JavaFX, MySQL, Jasper Reports

- Built a Web-based system to manage book operations and reporting.

E-Commerce Platform (Sk food order web app)

Technology Stack: Spring boot, Aws (S3 bucket, EC2, RDMS), React js, MySql

- Designed a full stack application for inventory, sales, and customer management.

POS SYSTEM-Motor Part billing Inventory Management System

Technology Stack: C# Windows form, Microsoft SQL Server Management, Spring Boot, Crystale Report

- A Windows application for managing billing and inventory of motor parts. The system utilizes a SQL Server database to store data and provides features for product analysis and control. Used technologies.

EDUCATION & QUALIFICATIONS

Software Engineering

BSc (Hons) in Software Engineering

Cardiff Metropolitan University

2025 - 2026 | Ongoing

Higher Diploma in Software Engineering (HDSE)

(National Institute of Business Management)

2023 | Completed

Diploma in Computer System Design (DCSD)

(National Institute of Business Management)

2022 | Completed

GCE (A/L) - 3 Passes (Science)

2017 | Completed

I do hereby declare that all the information and facts furnished above are true, correct and complete to the best of my belief and knowledge
