

SUMEADHA ERANDA

Software Engineer

PROFESSIONAL SUMMARY

Results-driven Full Stack Software Engineer with all most 3 years of hands-on experience in designing, developing, and maintaining scalable web and enterprise applications. Strong expertise in JavaScript frameworks, Java-based backend systems, and modern software architectures. Proven ability to deliver high-quality internal and client-facing products using agile methodologies. Passionate about clean code, performance optimization, and continuous learning, with a strong foundation in database design, and system architecture.

PROFESSIONAL EXPERIENCE

Full Stack Software Engineer

Singer Srilanka – IT Head office

JAN 2024 - SEP 2025

Singer - IFS Integrated Enterprise business Mobile Application (Internal Product)

Technology Stack : Flutter (Dart), Asp Net Core web API, Oracle

- Improved sales process efficiency by providing a centralized mobile platform integrated with IFS, enabling faster and more reliable business operations.
- Enhanced workforce productivity through automated workflows, secure access control, and real-time business information availability.

Employee Hierarchy Automate System (Internal Product)

Technology Stack : Oracle PL/SQL , IFS HR Module , Asp .NET Razor Page

- Developed a digital employee hierarchy management system integrated with IFS HR to automate manual organizational structure maintenance and improve HR operational efficiency.
- Reduced manual reporting effort, improved employee data accuracy, and enabled faster access to real-time hierarchy information for business decisions..

Singer – IFS | ERP Business Operations Mobile App Permissions system (Internal Product)

Technology Stack : PHP (Laravel) , MySQL , JavaScript, Bootstrap (WEB Application)

- Implemented hierarchical role-based access control to manage secure user permissions across business operations.
- Sales Operations Management features including customer management, order processing, and workflow approvals.

Neen Opal – Singer | Data Migration & ETL Automation System

Technology Stack : Oracle SQL Stored Procedure, C# Console App

- Automated recurring data migration processes to reduce manual effort and improve operational efficiency.
- Designed scalable ETL workflows for large-volume data processing with enhanced data accuracy, validation, and system reliability.

Singer - Hayleys | Advantis Data Migration

Technology Stack : Oracle SQL Stored Procedure ,C# Console App, sftp

- Singer real-time data integration workflow between Singer IFS ERP and cloud infrastructure using XML-based data exchange and secure SFTP transmission
- Analyzing HR-related web modules using aligned with business workflows.

Sampath Bank -Singer | (SOPE) payment service integration

Technology Stack: Oracle SQL , ASP.NET Core Web Api

- Mange Sampath Bank SOPA payment gateway
- Implemented secure payment flow with hash validation and callback handling
- Enabled real-time transaction status updates

Xiteb – Singer | E-Commerce Data Integration

Technology Stack : Oracle PL/SQL ,ASP .NET Core Web Api

- integration system to sync e-commerce data with IFS database
- Developed APIs for order and customer data processing
- Ensured reliable and consistent data synchronization

CORE TECHNICAL SKILLS

Programming Languages

Java, C#, React, Python

Frameworks

Laravel, React, Angular, Flutter, React js ,React Native, Bootstrap, Spring, Spring Boot

Databases & Data Management

MySQL, MongoDB, H2 Database, Relational Database Design, ORM

Software Architecture & Concepts

Object-Oriented Programming (OOP), Design Patterns , MVC Architecture, Client–Server Architecture

Tools & Platforms

Git ,Visual Studio Code, IntelliJ IDEA, Vscode

Operating Systems

Windows, Linux

Cloud & Other Technologies

Firestore, AWS, AJAX, PWA Development, Docker Pipeline

ACHIEVEMENTS & STRENGTHS

• Experience working on both internal products and enterprise-level client systems.

• Strong understanding of full software development lifecycle.

• Ability to quickly adapt to new technologies and frameworks.

• Proven teamwork and communication skills in agile environments.

Associate Software Engineer

SML Technology SolutionsJUL 2022 – Aug 2023

SelfHostWCFSERVICE

Technology Stack: Oracle ,ASP .NET Core Web Api

- Developed and maintained self-hosted WCF services for backend communication and business process handling.
- Implemented load testing automation to identify performance bottlenecks and improve system stability.
- Analyzed system performance under heavy workloads and optimized application reliability.

RFID ORDER SIT Duplicator

Technology Stack : .NET Windows Forms, Microsoft SQL Server

- Developed a Windows desktop application to automate RFID order data duplication processes.
- Implemented Excel file processing and data migration functionality to transfer records into SIT database.

PERSONAL & ACADEMIC PROJECTS

Safe AirTrack System (WEB & Mobile App) - Final Research

Technology Stack : React.js, Google Maps API, IOT, Spring Boot,(AWS) MySQL, Docker pipeline

- Implemented live metrics and interactive charts for CO₂ levels, temperature, and humidity.
- dashboard for a CO₂ Monitoring System to visualize real-time air quality data.
- Integrated GPS map views to track device locations in real time.

Final project link

Online Book Management System

Technology Stack : Java Spring boot, MySQL, React.js

- Built a Web-based system to manage book operations and reporting.

E-Commerce Platform (Sk food order web app)

Technology Stack: Spring boot, Aws (S3 bucket, EC2, RDMS), React js,

- Designed a full stack application for inventory, sales, and customer management.

POS SYSTEM-Motor Part billing Inventory Management System

Technology Stack : C# Windows form, Microsoft SQL Server, Crystale Report

- A Windows application for managing billing and inventory of motor parts. The system utilizes a SQL Server database to store data and provides features for product analysis and control. Used technologies.

EDUCATION & QUALIFICATIONS

BSc (Hons) in Software Engineering
Cardiff Metropolitan University
2026 | Completed

Higher Diploma in Software Engineering (HDSE)
(National Institute of Business Management)
2023 Completed

Diploma in Computer System Design (DCSD)
(National Institute of Business Management)
2022 | Completed

GCE (A/L) - 3 Passes (Science)
2017 | Completed

I do hereby declare that all the information and facts furnished above are true, correct and complete to the best of my belief and knowledge
